

Travel Hangman

PLAY INSTRUCTIONS

GAME INSTRUCTIONS

A GAME FOR 2 OR MORE PLAYERS

OBJECTIVE

One player thinks of a word or phrase while other players try to guess it by suggesting letters in the word or phrase a limited number of times.

SET-UP

Select one player to run the game (Player A). Player A flips all the letter tiles so they are face-up, and all the hangman tiles so the graphics are face-down.

Player A thinks of a word or phrase, then draws lines on the dry-erase board representing the position of each letter in the word or phrase.

For example, if the chosen phrase is "Happy Birthday,"
Player A writes "_____"

BASIC PLAY

- The remaining players take turns guessing a letter of the alphabet. Player A flips each letter tile over once it is called, indicating it has been guessed.
- If the letter is in the word or phrase, Player A fills it in on the appropriate line on the dry-erase board. For instance, in the previous example, if the first letter guessed is H, Player A writes two H's on the corresponding lines:
"H_____H____"

- If the letter guessed does not appear in the word or phrase, Player A flips over one of the hangman tiles. If a player guesses a correct letter, he or she continues guessing letters until failing to make a match. (If playing with just two players, the guesser continues guessing until he or she either wins, is disqualified, or until all hangman pieces are flipped over.)

WINNING THE GAME

At any point during a player's turn, he or she may guess the complete word or phrase. If the player is correct, he or she wins! If the player is incorrect, he or she is disqualified and the game continues. Player A wins if the other players are all disqualified, or if all the hangman tiles are flipped over before the word or phrase is guessed correctly.

INCREASING DIFFICULTY

For an extra challenge, start with some of the hangman tiles flipped over, or flip two hangman tiles over for each incorrect letter guess.
