

U.S.A. License Plate Game

PLAY INSTRUCTIONS

A GAME FOR 1 OR MORE PLAYERS

This game is played while traveling in a vehicle on the road. To play with ONE player or cooperatively with ALL passengers, flip as many tiles as possible during a certain time period. To play competitively between TWO players or teams, one chooses to be red and the other blue. To play competitively between THREE players or teams, one chooses red, one blue, and one flips tiles so the state name and capital face up.

OBJECTIVE

Identify different state license plates on vehicles and flip the corresponding license plate tile on the game board. The ultimate goal is to find and flip them all!

SET-UP

Determine how long the game will be played: an hour, until you reach your destination, the entire day, etc. Begin by flipping all the tiles so the images of the license plates are facing up.

BASIC PLAY

- Look for different state license plates during a trip. When one is spotted, point to the vehicle and call out the state's name. The first to say the name aloud flips the corresponding tile to his or her chosen color (red or blue) or side (name/capital).

NOTE: Many states have special license plates that are different than the ones shown on the game board; these plate designs are eligible as long as a player calls out the correct name of the state.

- If both players spot the same license plate and say the state name at the same time, neither player flips the tile.
- Once a tile is flipped, it cannot be flipped again by another player.

WINNING THE GAME

If playing competitively, the player or team with the most tiles flipped at the end of the game wins! If playing individually or cooperatively, set a goal for how many different plates you will find, or try to break your previous record!
